

INSTITUTO DE
BIOMECANICA
DE VALENCIA

ESPRM

European Society of
Physical & Rehabilitation Medicine

Letter of intention to cooperate between

the European Society of Physical and Rehabilitation Medicine (ESPRM)

&

Instituto de Biomecanica de Valencia (IBV)

IBV is a technological Centre that studies the behavior of the human body and its interaction with products, environments and services.

ESPRM is currently working on the development of the 21st European Congress of Physical and Rehabilitation Medicine, that will take place from 1 to 6 May 2018 at Litexpo- Congress Center (Vilnius).

The targets of the cooperation between IBV and ESPRM are:

- IBV, as an Innovation and Research Centre, has among its main objectives the dissemination of the results of its projects, encouraging the ways professionals could take advantage of them. Therefore, IBV would be pleased to have the chance to take part in the next ESPRM Congress setting up a workshop focused on biomechanics and health technology.
- To promote each partner in the area of influence of the other one. With this purpose both entities will make available their dissemination channels to promote the spread of those innovative activities which could be relevant for Rehabilitation professionals.
